InfrasoftTech enjoys a majority share in AML solution space in Ghana. Seven banks in the country use InfrasoftTech's OMNIEnterprise software platform, thereby critically providing assistances in monitoring money laundering activities. InfrasoftTech's solution over a period of time has been fully customized to Ghana's requirements & project execution cycles are reduced to less than two months.

Mr. Joseph Patterson, Executive Head, Business Solutions at ADB Limited, Ghana spoke about his satisfaction on achieving the targeted goal of compliance with FIC Ghana; he said "We really feel that the depth of solution functionality has made our task quite easy and allowed us to go-live in short span of five weeks. It is to the credit of configurability of the solution that we were able to roll-out all the 3 types of FIC reports with minimal efforts. InfrasoftTech's methodology for project execution and their understanding of Ghanaian requirements helped in avoiding usual risks in project implementation. The solution has been able to
