Bank of Maharashtra has a large customer base and wanted to mobile-enable its services in keeping with evolving customer expectations. The solution had to be scalable, both in terms of increase in mobile banking usage as well as expansion in portfolio of services offered.

InfracsoftTech's Mobile Banking Solution has helped Bank of Maharashtra to provide its clients a highly flexible way of banking. With this solution, Bank of Maharashtra's customers can view account related information, make secure fund transfers, send funds through NEFT, make merchant and utility payments, raise service requests like debit card request, debit card pin regeneration, credit card request, block debit card and many other such services that a customer needs on day-to-day basis. The 2FA authentication makes the transactions highly secure and safe. The solution also provides value added services like mobile passbook, complain lodgement and change of PIN. It also provides location-aware features such as branch/ATM locator for
